## Appendix A

### FY2008 DMC RRI Data Sources and Notes

#### 1. Population at risk

Data Source: Shaunna Ford of Utah Board of Education, Statistic Department

Utah Population is as of October 2008 school enrollment. Data were generated for this report on October 8, 2008. The data does not include an estimate of the 3% private school youth and the 1% home schooled youth. The data does, however, include charter schools.

#### 2. Arrest

Data Source: Mary Ann Curtis of Utah Bureau of Criminal Identification

The most recent juvenile arrest rates data available was calendar year 2007 BCI data. Asian and Pacific Islander rates are combined in this dataset. Hispanic rates were subtracted from the White racial category. This assumes all those of Hispanic origin noted their race as White. No "Other/Mixed" Race category was tracked. There was no report of arrest data for Garfield, Daggett, and Piute County. The total youth arrested includes 0-9 years old, which consist of 1.18% of the total youth population age 0-17.

#### 3. Referral

Data sources for Referral (#3) to Transferred to Adult Court (#10) were compiled from the CARE database implemented by the juvenile court system and Juvenile Justice Services (JJS). All points of contact from CARE data were aggregated on INTAKE DATE (for an "episode-based" analysis), except Detention which was calculated by in/out dates in location assignment to locked detention. Fiscal Year was selected based on INTAKE DATE. FY08 was comprised of INTAKE DATES between 7/1/07 and 6/30/08.

Race/Ethnicity information was missing for 4.1% of statewide CARE data.<sup>1</sup> In order to create the categories in the DMC tables, Race and Ethnicity were combined. Youth who were identified as "Latino/Hispanic" in Ethnicity and "White" in Race were flagged as "Hispanic" for the DMC tables. All other categories came from the number of youth reported in the Race groupings. Less than .01%<sup>2</sup> reported multiple minority Races and were coded into their first listed race.

Referral to the Court included all INTAKE DECISION codes, *except* the following (which are considered non-delinquency cases or internal court action):

---

<sup>1</sup> For FY08: 4.1% statewide, 1.9% for Salt Lake County, 2.4% Weber County, 9.6% Davis County, 4.7% Utah County, 5.6% Non-Wasatch Front Counties

<sup>2</sup> Of youth in FY06 through FY09 CARE data

AWE	Adult Warrant Executed
CAD	Case Accepted Another District
CW ONLY	Child Welfare
DTH	Detention Hearing
EEP	Education Enhancement Program
Exparte	Exparte Order
EXX	Warrant Executed
FIL	See File for intake action
FOR	Forwarded to another juvenile court
ICJ	Interstate Compact
IPN	ICJ-Ut Probation Not Accepted
LRE	
REV	Review Hearing Set
SHH	Shelter Hearing
TRH	Transient Returned to Home
VAC	Warrant Vacated
VAW	Adult Warrant Vacated
VOM	Closure for VOMP
Warrant	Warrant
YPA	Youth Parole Authority

#### 4. Diversion

Diversion from the court included the following INTAKE DECISION codes:

Citation	Citation (include CT1 & CT2 in older FY)
FRM	Form Letter Sent to Parents
NJ	Non-Judicial (include all NJ+letter in older FY)
NOA	No Action Taken by Intake
NOF	No Action Taken After Contact
NRS	Alternative Referral Services
OTH	Other Non-Petition Action
INS	Insufficient Facts to Justify*
LOC	Unable to Locate the Referred*
NOJ	No Jurisdiction to Proceed*
PCA	Petition Denied by Prosecutor*
REF	Referred to Another Agency*
RET	Returned to Referral Source*

\*These codes were flagged as a separate type of “Dismissal” Diversion for separate internal DMC analyses. They are a small minority of the Diversion cases.

Diversion was also flagged by the new NJIntakeDecision field in CARE. However, there was some discrepancy between cases that showed Diversion in the NJIntakeDecision field and in the INTAKE DECISION field, due to cases perhaps being originally Diverted, but later Petitioned due to lack of compliance. In these cases, only the later court action (Petitioned) was counted for RRI purposes. However, the NJIntakeDecision Diversion flag has been retained for internal analyses of DMC for Diversion.

## 5. Detention

Detention was captured from Location Assignment CARE table. Location assignments to locked detention were summed by youth and RRI Category (e.g., White), making sure not to duplicate count moves within detention (e.g., a youth enters detention on 7/1/08, appears to be released on 7/3/08, but re-enters on 7/3/08 and exits again on 7/9/08 – in this instance, only 1 detention placement would be counted).

## 6. Petitioned/Charges Filed

Petitioned included the following INTAKE DECISION codes:

CIT	Citable Charge Set for Hearing^
INF	Information Filed
MOT	Motion Filed
PET	Petition (include PT1, PT2, & PT3 in older FY)
PETREFIL	Petition Refile
OSC	Order to Show Cause*

^CIT are citable (Divertable) charges, but they have been set for a hearing with a judge for whatever reason; therefore, they do not qualify as a Diversion for RRI purposes

\*OSC's have also been flagged as their own category for separate internal DMC analyses.

## 7. Delinquent Findings

Delinquent Findings were all DISPOSITION codes in CARE, *except* the following (which are considered dismissals/not guilty, or cases that were processed non-judicially (counted in Diversion)):

DIS	Dismissed
DPB	Dismissed Plea Bargain
DWP	Dismissed Without Prejudice
NJ_	NJ+letter codes that indicate Non-Judicial processing

It should be noted that data were aggregated on Intake Date, so if one charge in that group had one of the previous Disposition Codes, but other charge(s) in the group did not, that episode would be flagged as Delinquent (although some charged within that episode may have been dismissed).

ADJUDICATION DATE in CARE was also examined for overlap with DISPOSITION codes of delinquency.

## 8. Probation

Probation included the following DISPOSITION codes:

PRO	Probation by probation division
YCP	JJS Community Based placement*
PSS	Probation State Supervision^
PWC	Probation Work Camp^
YSS	DJJ State Supervision ^
GSS	DCFS State Supervision ^

\*YCP was included in OJJDP reporting as it is a form of supervision. Separate probation from probation codes vs. JJS Community Based placement flags were created for separate internal DMC analyses.

^Other specialty probation codes (e.g., State Supervision) were usually accompanied by the standard probation (PRO) code. However, when they were not, these codes were still included in the count of probation.

## 9. Confinement in Secure Correctional Facilities

Secure Care included the following DISPOSITIONS:

YSF	Commitment to YC secure facility
-----	----------------------------------

## 10. Transferred to Adult Court

Transfer to Adult Court included the following DISPOSITIONS:

BOD	Bound over to district court
OCT	Certified to adult court

Age at incident that resulted in BOD or OCT DISPOSITIONS was examined and determined to be 18 or younger to be included in the RRI count.
