How to Rid Your Neighborhood of a Drug/Nuisance House

"The only thing necessary for the triumph of evil is that good men and women do nothing."

EDMUND BURKE

A "Drug House" operates just like a business. And like any other business, it depends on customers to make the business profitable. Besides being illegal, the customers and staff of a "Drug House" business create a Public Nuisance by introducing crime, fear, violence, noise, litter, and health risks to a neighborhood, destroying the neighborhood's peace, harmony and general quality of life.

Drug/Nuisance House Danger Signs!

- Increase in noise such as loud voices, fights, gun fire, loud music and parties, especially late at night.
- Active prostitution in or around the neighborhood.
- Increase in the neighborhood crime rate of the following crimes: auto thefts, home burglaries, muggings, vandalism and assault.
- High traffic flow to a particular house or apartment.
- Litter, such as used condoms, syringes, plastic bags, glass pipes, bottles, stacks of used matches, and graffiti.
- Cars speeding up and down the street, honking or "burning rubber" as they drive away.
- Unusual odors surrounding a home.
